The elegance of a Sivica home is apparent when you cross the threshold—10-foot ceilings

and crown moulding grace open, livable floor plans. Outside, you'll appreciate the superior quality of Hardi-plank concrete siding and cedar shake. You'll have time to enjoy your professionally landscaped yard because we take care of maintenance.

Sivica invests the time to properly plan, build, and manage its communities. Our investment enhances your investments in your home, family, and lifestyle.
